

Historical Membership Figures

The following are the annual membership figures for the American Society of Criminology. It is obviously incomplete, as many records have been lost. In some instances, there are irreconcilable discrepancies from one historical report to another. Some years, round numbers were reported rather than actual counts, and finally, membership years were defined differently from time to time in the past. This is, however, the best we have, and it at least gives us some sense of the growth ASC has experienced through the years.

The oldest Membership Committee report we have is a handwritten document from 1959, prepared by the Chair of the Membership Committee at that time, Albert C. Germann (see www.asc41.org/history/Membership_Figures-Lists/ASC_Membership_Committee_report_1959.pdf)
